👤 Profile

As a frontend developer, I have a strong interest in designing user-friendly and aesthetically pleasing interfaces. I am meticulous, detail-oriented, and always strive to deliver high-quality solutions. In my free time, I enjoy organizing board game nights with friends and sailing in the archipelago with my partner.

💼 Work Experience

Software Developer, Collabodoc AB   2022 - Current

Frontend Development: Expert in creating engaging user interfaces and functional solutions with HTML, CSS, JavaScript, React, and TypeScript.

Design: Use Figma, Adobe Photoshop, and Premiere Pro to create inspiring sketches, videos, and images. As a lead designer, I am responsible for developing user interfaces and design in collaboration with the client.

UI Components: Build and document components with precision in Storybook.

Version Control and Collaboration: Manage Git and Azure DevOps daily for seamless collaboration and version control.

Fullstack Development: Basic knowledge of C#, PostgreSQL, .NET, MVC, and APIs.

Website Management: Update and maintain the company's website via Wix.

Customer Interaction: Lead in customer meetings where I not only discuss requirements and wishes but also provide technical support.

Events: Represent the company at trade fairs and other industry events.

Sales & Customer Service, Invite AB   2014 - 2017

🎓 Education

Bachelor's degree Systems Science,   2018 - 2021
Örebro University
